A Unique Performance for Thursday Night, Nov. 18th.

The Gaetz-Cornett Drug & Book Co. have arranged for the presentation of Leoncavallo's famous two act musical drama, Pagliacci, recorded especially for the Victor Talking Machine Co., under personal direction of the composer. Every record in the series was made in the presence of Signor Leoncavallo and the music conducted by him, a feature which makes this collection exceptionally valuable and unique.

The artists selected by Signor Leoncavallo to interpret his great work are well known and competent ones, as shown by the following:

Cast of the Victor production—
Nedda - Guignea Huguet
Canio - Antonio Paoli
Tonio - Francesco Cegada
Peppe - Gaetano Pini Corsi
Silvio - Ernesto Badini
Chorus and orchestra of La Scala, Milan, directed by Maestro Sabatini.

Leoncavallo's beautiful opera is admirably suited for reproduction on the Victor and while listening to the singing of the artists, who have rendered these dramatic scenes, no great imagination is required to picture the various situations. The situations will also be described and explained during the presentation by Mr. Robert Shaw in his inimitable fashion.

The Victor Aux-o-to-phone will be used to render these selections. This truly remarkable instrument, which is manufactured by the Victor Talking Machine Company, utilizes the well known pneumatic principles of the largest church organs to amplify the tone engraved on the Victor record. It is the invention of Sir Edward Parsons, the originator of the turbine engine.

The entertainment will be varied by a reading or two by Mr. Shaw, who is unexcelled in the rendering of Drummond's Habit sketches, and further by some selected moving pictures.

An admission of 25c. for adults and 15c. for children will be charged in order to cover a portion of the expense of this remarkable entertainment, the balance to be met by the Gaetz-Cornett Drug & Book Co., who are sole agents in Red Deer for the Victor goods.

Do not forget the date—Thursday, Nov. 18, 8 p.m. sharp.

Wedding Bells.

A happy event took place at the home of Mr. and Mrs. W. E. Coram, Springvale, on Wednesday evening, Nov. 10th, when their youngest daughter, Annie Bertha, was united in marriage with Horace Ray Gilbert, of Pine Lake. The bride, who was becomingly attired in a gown of cream lustre, entered the parlor leaning upon the arm of her father, the young couple being unattended. The nuptial knot was tied by Rev. W. K. Allen in the presence of the immediate friends of the family besides other guests. After the ceremony the happy couple received the hearty congratulations of the friends and a splendid supper was partaken of. The evening was pleasantly spent with music and games, and the following day Mr. and Mrs. Gilbert left for their new home near Pine Lake, followed by the best wishes of the whole community.

The Creamery Pays.

During the six months, ending Oct. 16, '09, the Red Deer creamery has disbursed to its patrons in advance cheques nearly \$18,000. With the balance cheques to follow, the amount of money received by the farmers, from the source, for the produce from their dairy will run up over the \$20,000 mark.

The revenue received by many of the farmers from the creamery compares very favorably with that received by many of the large patrons of old established factories in the east. Also the work is not so great, because the cream is gathered from their door, thus saving them the time and trouble of hitching up and delivering their own milk.

Among those whose cheques average between \$80 and \$75 per month for the summer we notice the names of W. Collier, C. A. I. Sharman, George Parker, E. Charwell and several others. We wonder were we to ask any of these men if they consider they have received a good dividend on their money invested in the herd, what their reply would be? We believe it would be very favorable to the dairy industry.

L. I. D. 19-T-4.

The regular meeting of Local Improvement District 19-T-4 was held in the Smith & Gaetz block Saturday last with all the members in attendance.

A number of accounts were passed and routine business disposed of.

Arthur Hives, chairman of the district, was appointed a delegate to the convention of L. I. D. representatives, which meets at Strathcona to-day and to-morrow. The meeting then adjourned.

Presentation.

After choir practice on Thursday evening last, Nov. 11th, a most interesting little surprise was in store for Mr. F. Hart, who is about to leave Red Deer for B. C. About 9 p.m. the choir, and a few friends, who had come for the occasion, were assembled together, with Mr. Hart in their midst, and Rev. Moore with a few well chosen words fully expressed the appreciation of the members for his work amongst them and of his every body help in every kind of work. He also spoke of the regret everyone felt at his coming departure, and while wishing him every success, assured him of a hearty welcome awaiting him in Red Deer should he ever return. He then presented him with a gold watch and fob, beautifully engraved with the following inscription: Presented to F. W. Hart by his friends and choir of St. Luke's Church, Red Deer, Alta., Nov. 11th, 1909. Mr. Hart, who was taken completely by surprise, expressed his thanks in a few words full of feeling and the assurance that he would always remember the good times and his many friends in Red Deer.

Supreme Court.

The Dubois case took up most of last week's court.

Dubois was acquitted on one count. Decision reserved on another. His trial on a third started yesterday and will last some time.

Wildman, Little Red Deer, charged with assault, was acquitted.

L. C. Fulmer case not up for trial yet.

The Council.

There are three vacancies on the Council this year, namely Councillors Pidgeon, T. A. Gaetz and H. H. Gaetz. As S. E. McKee will run for Mayor, his seat will also be vacant.

S. N. Carscallen and F. W. Galbraith have intimated their intention of running for the Council, and Councillors H. H. Gaetz and P. Pidgeon will probably stand for re-election. J. H. Menzies' name has been mentioned prominently as a first class candidate, and if he could be persuaded to stand would be a strong acquisition to the Council.

Musical Recital.

The musical recital in the Methodist church Friday evening last was well attended. The singing of Miss Smith, and reciting of Miss Hicks, both of Edmonton, was of a very high order and greatly appreciated. Miss Michener's pupils gave a number of difficult selections in first class style. The four hand and eight hand selections were well rendered. Altogether, the entertainment was a success, and reflects credit on Miss Michener as a teacher.

THE MAYORALTY.

Councillor S. E. McKee has definitely announced his intention of offering his services for the position of Mayor.

Mr. McKee is bluff, steady as a rock, and a man of considerable ability, and one that would fill the position with credit to himself and the town should he be elected.

So far we have not heard of any other aspirant for the office, and the chances are that Mr. McKee will be elected by acclamation.

A CALGARY PAPER PROPHECIES.

Saturday's *Albertian* made a correction with regard to Red Deer, showing our post office returns to be \$7,485, and says:

A correspondent calls our attention to the fact that a typographical error in the *Albertian* showed Red Deer with postal returns last year of \$7,185, instead of \$7,485, which means Red Deer gained last year. The *Albertian* regrets the mistake and ventures to predict that the gain which Red Deer will show during the next year will be very much more than Red Deer showed last year, and that each succeeding year will be greater than the preceding for the next decade. Red Deer is one of the many Alberta towns that is going to make some records during the next few years.

B. C. FAR AHEAD OF ALBERTA.

All by itself the *Bulletin* has made the discovery that Premier McBride is afraid of his railway policy—so afraid that he fears to publish a voters' list.

The *Bulletin* must have forgotten something.

When the question of voters' list was before the Dominion House the Liberals at Ottawa wanted the British Columbia system of voters' lists in that province abolished and the Alberta system substituted therefor.

No Liberal member who supported that proposition is now a representative in the Dominion House. No Conservative member who fought against it was defeated at the polls.

The Alberta system calls for voters' lists which are no lists at all, as everyone in this province knows. It is not possible at the present moment to go to any official of either the Provincial or the Dominion government and get a printed voters' list of any constituency. There are no printed lists in this province and there never were any since the present Minister of Interior has had the arranging of matters in this regard.

There is no time in the

province of British Columbia that any elector cannot get a voter's list. There is never a moment, according to the law of that province, when the lists do not exist in printed form. All lists are periodically revised. Until this revision is complete, the old list is the list on which any election must be held. The new list is made up of the old list with such additions as are accepted by the court of revision at which any elector has a right to have a name cancelled if he can show that it should not properly be there. No name can be struck from the British Columbia list until it has been advertised in the public press, giving the elector sufficient opportunity to see that his name is not among the absentees.

In the face of the fact that he could by the use of a one cent post card to the recorder of voters, get the last provincial list and a copy of the names added at the last court of revision, the cheap theatricians of John Oliver appealing to the lieutenant governor to delay the election makes it look as though it is the leader of the alleged Liberal party that is afraid, not the Premier of the Province.—*Edmonton Journal*.

THE HALIFAX PLATFORM.

Some of the Government organs, says the *St. John Standard*, wish to know what has become of Mr. Borden's Halifax platform. They will find a part of it in the civil service act, another part, mitigated to taste, in the amendments to the railway commission act, a third plank, whittled down, in the rural mail delivery experiment. So far as the national ports idea has been adopted the Borden platform has been used. If the Intercolonial has been taken out of politics, as is falsely pretended, another part of the platform would have gone to that. The policy of honest expenditure, honest elections, appointments by merit, reform of the Senate, the abolition of bonus for immigrants, public land for the people instead of the grafter, Imperial preference and Provincial rights are still available but have not been appropriated.

Deanery Meeting of Red Deer.

The Clergy and Lay Representatives of the Anglican church in the Deanery of Red Deer met in conference, at Innisfail, on the afternoon of Monday, Nov. 8th. Those besides the ministers in the deanery were: H. V. T. Collier and W. Attwood, candidates for ordination, engaged in mission work east of Didsbury, and Messrs. G. H. Haylock, Lacombe, A. Hives, Penhold, F. M. Oldham and W. George, Innisfail, J. G. Adams, Red Lodge, and H. W. Shaw, Sunny Slope. A circular

from the Executive Committee of the Diocese dealing with the state of the church and prospects for the future was read. A long and earnest discussion followed, resulting in a number of resolutions, copies of which the Secretary was instructed to forward to the Executive Committee and other Deaneers in the Diocese. These included: (1) Expressions of approval that the Executive intended to inquire carefully into the general affairs of the Diocese and the hope that the church as a whole would respond to the call made upon her by the Executive in grants in aid from outside; (2) a recommendation that more careful inquiry should be made as to the desire on the part of a new or vacant mission to have a clergyman and willingness to do their part for his support before an appointment should be made; (3) a resolution of regret at the retirement of Canon Webb from the position of general missionary, with the suggestion that a successor be appointed as soon as possible, even if it meant retrenchment in other respects; (4) a suggestion that the constitution of the Diocese be so altered that the Secretary need not be a clergyman; (5) a desire for the revival of the Diocesan magazine. Later a resolution was passed to the effect that, "this Rural Deanery is of the opinion that the subject of religious education should not be entirely neglected in our public schools." The clergy and missionaries, with the addition of Rev. A. J. Patstone, of Rimby, remained for chapter meeting till the afternoon of the following day. During the last session Canon Webb was present and read a paper on "Ordination." A reading union among the clergy was formed and votes of thanks to the recorder and people of Innisfail for their kind hospitality spontaneously carried.

NOTICE.

Notice is hereby given that the Grand Trunk Pacific Branch Railway Company will apply to the Parliament of Canada, at its next session, for an Act amending the Act incorporating the Company, chapter 90 of the Statutes of 1900, and authorizing the construction of the following additional lines of railway:
(1) From a point on the Western Railway in the vicinity of the town of Watrous, Sask., to a point at or near Calgary, Alta., or to a point on the line authorized to be constructed by the Company from a point on the said Western Railway between the 11th and 12th degrees of longitude to Calgary, Alta.
(2) From a point on the proposed line mentioned in paragraph (1), within ranges 4, 5 or 6, west of the third meridian, thence in a southeasterly and easterly direction to a point at or near Regina, Sask.
(3) From a point on the proposed line mentioned in paragraph (1), within ranges 22, 23 or 24, west of the third meridian, thence in a northerly or northeasterly direction to a point at or near the town of Biggar, Sask.

BEAVERS' HOMES.

How the Ingenious Little Builders Construct Their Houses.

When the beavers' dams are completed, the animals separate into small companies to build cabins or houses for themselves. These are constructed upon piles along the borders of the pond. They are of an oval shape, resembling a beaver's tail, and vary from five feet to ten feet in length, according to the number of families they are to accommodate.

These dwellings are never less than two stories high, generally three, and sometimes they contain four apartments. The walls of these are from two feet to three feet thick, formed of the same materials as the dams. On the inside they are made smooth, but left rough without, being rendered impenetrable to rain.

The lower story is about two feet high, the second is formed by a floor of sticks covered with mud, and the upper part terminates with an arched roof. Through each door there is a passage, and the uppermost floor is always about the level of the water. Each of these huts has two doors, one on the land side to admit of their going out and seeking provisions that way, another under the water and below where it freezes to preserve their communication with the pond.—*English Magazine*.

FLOATING A WHALE.

Inflating the Monster Carcass to Bring It on the Surface.

"Then began the work of bringing the whale to the surface and blowing it up so that it would float," says a writer on whaling in *Popular Mechanics*. "Taking a hitch about a convenient post, the rope was slackened and run through a pulley block at the masthead to relieve the strain of raising the great body. The whale was set in motion, and for fifteen minutes nothing was heard save the monotonous grind as fathom after fathom of line was wound in. When the body was brought alongside the lobes of the flukes were cut off and lifted to the deck. Then a long coil of small rubber hose, one end of which was attached to a pump and the other to a hollow, spear pointed tube of steel with perforations along its entire length, was brought into play. The spear was jabbed well down into the whale's side, the air pump was started, and the body slowly filled with air. When inflated sufficiently to keep it afloat, the tube was withdrawn, the incision plugged with oakum and the carcass cast off. A buoy with a flag was then attached to the carcass and the whole set adrift to be picked up at the end of the day's hunting."

What He Wanted.

Young Mr. Charles was plainly embarrassed, and Miss Smith knew what was coming or thought she did. "Er—Miss Smith," he said feebly, "could I—er—see your father for a moment or two?" "Certainly, Mr. Charles," and, excusing herself, she swept from the parlor. Presently the old man came in, and, after a short conversation with Mr. Charles, he stepped to the door and summoned his daughter.

Mr. Charles, whose face was radiant, said, "As I have a long ride before me, I think I will say good night." "Oh, papa," pleaded the girl immediately, "my lover disappeared, 'd he did you?" "I did," broke in the old man. His daughter fell on his neck and kissed him. He held her at arm's length.

"I did," he repeated. "I lent him fourpence to get home with—that was what he wanted me for."—*London Mail*.

Origin of Surnames.

Surnames were introduced into England by the Normans and were adopted by the nobility about 1100. The old Normans used Fitz, which signifies son, as Fitzherbert. The Irish used O for grandson—O'Donnell. The Scottish highlanders used Mac, as MacDonald, son of Donald. The Welsh used Ap, as Ap Idris, the son of Idris. In Ireland, the prefix Ap was usually combined with the name of the father; hence Prys, Pritchard, etc. The northern nations added the word son to the father's name, as Williamson. Many of the most common surnames, such as Johnson, Wilson, Davis, Nicholson, etc., were taken by Brabants and others. Fitzgeralds, who were called the Scottish highlanders, used Mac, as MacDonald, son of Donald. The Welsh used Ap, as Ap Idris, the son of Idris.

The Sycamore.

The sycamore has been called the Egyptian fig tree. The date of its being planted in England is not known, but it was very early. Mary, queen of Scots, brought over from France a young sycamore, which she planted in the gardens of Holyrood, and from this have sprung all the beautiful groves of sycamores now to be seen in Scotland.—*St. James' Gazette*.

His Dilemma.

"I'm in a difficulty over my girl." "What's wrong?" "I've been saying such nice things to her that she's getting conceited. If I stop she'll think I don't care for her any longer, and if I go on she'll think she's too good for me."—*London Mail*.

A Previous Specimen.

"He—if I'd known how sarcastic you are I never should have married you. She—you had a chance to notice it. Didn't I say, 'This is so sudden,' when you proposed to me after four years' courtship?"—*Boston Transcript*.

AN INTOLERABLE NUISANCE

Many persons who require glasses for distance and an additional correction for near objects put up with the intolerable nuisance of keeping track of two pairs of glasses, because they do not know that there are two vision lenses, or else because they have been prejudiced against glasses of this kind by poorly made glasses improperly adjusted. Our two vision lenses are all one piece, the very acme of scientific achievement, and when properly fitted and adjusted are not only a thing of beauty, but a joy forever. Let me show them to you.

Town Offers To Buy Western General Plant.

Council Unanimous on Question.

The regular meeting of the Town Council was held Thursday evening last, with his worship Mayor W. J. Botterill in the chair, Messrs. Councillors H. H. Gaetz, McKee, Tallman, T. H. Gaetz and Pidgeon in attendance.

COURT OF REVISION.

The Council resolved into committee of the whole as a court of revision when the following change were made in the voters' lists: Added to the lists, J. W. Hickey, off the lists, C. Bergfried, F. S. Sage, J. Train, J. E. Bower, Loban & Stronach, Misses McLeay, C. Duncan, R. LeBlanc, F. Broderick, T. B. Finley, R. Theriault, B. W. Grievie, J. Sowell, Geo. Brull, all left town; W. Card, A. Cuthbert, J. McBeth, A. Billingham, J. P. Henski, F. S. Truby, J. Anderson, W. Brull, all sold property.

COUNCIL REPORT.

Moved by Councillors T. A. Gaetz and McKee that the secretary be instructed to add the name of J. W. Hey to the voters' lists and to strike out the names of the others on the above list.

Carried. The correspondence was of a routine nature and nothing to report.

COMMISSIONERS' REPORT.

We recommend that we be authorized to sell to the Merchants Bank the two unpaid coupons of debenture No. 6, value \$187.78 plus accrued interest at an interest rate of 6 per cent. The Town has been carrying this and paying 6 per cent. interest on it, and it will simplify the book-keeping to dispose of it outright and thus reduce the overdraft we will have early in the year. At present we have a surplus in the bank.

We have again inspected Gaetz Park and recommend that we be authorized to instruct Foreman Mifflin and Teamster Taylor to cut out a winding road through it from River Ave. to East Ave. This will be done in their spare time, and very few trees need be cut out. We will also have as much underbrush cut out as possible this winter so that next summer it will be available for use by the citizens as a park and picnic ground. We will have signs posted warning people against destroying trees.

The top casing of the hydrant at the corner of Stewart St. and Gaetz Ave. was broken by a runaway team on the 5th inst. We had it repaired at once using one of the old cases we had on hand.

We have instructed Chief Rothnie to have the lights in the exhibit building turned on at dusk and off at 10 p.m. in accordance with a request made by Mr. Brumpton, president of the Board of Trade.

We have arranged with Fire Chief Moore to have one of his horses kept in the fire hall to take out the hose wagon, the town to pay for its feed.

Mr. Albert was in Town yesterday with complete specifications for the new pump. These appear satisfactory in every way. We informed him that we would defer ordering for a couple of weeks, and have again written the secretary of the Fire Underwriters' Ass'n in regard to a reduction in the insurance rates for the Town.

Acting on our solicitor's advice, we recommend that the offer as submitted for your consideration be made to the Western General Electric Co.

We submit list of accounts for your consideration. We have received from Engineer Neville statement of cost of the sewer and water extensions put in this year. We will be able to have them tabulated, and submit them at the next meeting.

We recommend that the annual ratepayers' meeting be held on as near Dec. 1st as it is possible to secure the Opera House. As the last Council meeting in Nov. falls on the 26th, we ask that we be permitted to hold our annual report over to the ratepayers' meeting. This will give us an additional week, and we will then be able to give a more accurate estimate of the probable expenditures to the end of the year. We will have the report in the hands of the Councillors several days before the meeting so they will have time to familiarize themselves with it.

We submit for your consideration the following by-laws: To appoint a policeman. To borrow the sum of \$500. To provide for the elections. The report was adopted.

The following accounts were passed: Wes. Gen. Elec. Co. \$1.15 J. W. Tilden 9.50 W. E. Lord Co. 3.00 DesMarchais & Fyfe 88.52 Gorman Clancy & Co. 35.00

OFFER TO BUY THE ELECTRIC PLANT. Councillor H. H. Gaetz moved, seconded by Councillor Pidgeon that the Town of Red Deer offer to acquire by purchase from the Western General Electric Company, Limited, all its property, plant, machinery and equipment at its present cash value, together with a bonus of ten per cent. on the said value, to be ascertained by three arbitrators under the provisions of the Arbitration Act, one arbitrator to be appointed by the Company, one to be appointed by the Town and the two appointed arbitrators to choose the third arbitrator.

That in case this offer be accepted by the Company the Town will upon the amount being ascertained forthwith promulgate and submit to the vote of the duly qualified ratepayers of the Town a by-law authorizing the purchase of the said property and equipment for an amount sufficient to pay the purchase price so fixed, and upon the by-law receiving the assent of the ratepayers and proper conveyances of said property, plant, machinery and equipment to the Town, including a surrender of all its rights, powers, franchises, and privileges, free from all liens, charges and encumbrances, the Town will forthwith pay the Company the purchase price as fixed by the arbitrators. That this offer is without prejudice to any matters which may arise in the action now pending between the Town and the Company and subject to the by-law receiving the necessary vote thereon as required by the Municipal Act.

That the Secretary-Treasurer forward a copy of this resolution to the Company and request the Company to consider the same. Mr. Gaetz said this resolution was based on the form of resolution framed for this purpose by the legislature of Ontario and was as fair and just as could be expected by the company. He felt that the Council could afford to be as lenient as possible in this matter and hoped it would help to solve the difficulty existing between the Western General Electric Co. and the town.

The resolution then passed unanimously. Two by-laws passed their final reading. The by-laws relating to appointing returning officer and polling booth was laid over to next meeting.

Council adjourned.

FACTS OF CASE.

(By J. N. McDonald.)
Red Deer, Nov. 10.—The ex-
perience of the town of Red Deer
with the corporation to which it
granted a franchise to supply
light and power to the town, has
not been such as to encourage
other towns contemplating the
installation of public utilities to
follow its example. It has shown
how difficult it is to regain a
valuable franchise after it has
been once lightly disposed of and
also how hard a matter it is to
control a company that has once
secured such privileges. As a
rule, in such cases, agreements
are not drawn carefully enough,
and the holders of the franchise
find some hole in it, through
which it can escape from carry-
ing out the real intention of the
agreement.

THE QUESTIONS IN DISPUTE.
There are at the present time
matters in dispute between the
town and the company in regard
to the rights of the latter under
their agreement which the courts
will likely be called upon to settle,
and in the meantime the citizens
are suffering great inconvenience
through the failure of the com-
pany to carry out what is be-
lieved to be the spirit of the
agreement. The history of the
question is as follows: In the
year 1903 an agreement was
entered into between the Town of
Red Deer and the Western Tele-
phone company, limited, by
which the latter was granted a 25
year franchise for the exclusive
right and privilege of lighting the
streets of the town of Red
Deer and for the distribution of
light, power, telephone and other
electrical services for municipal,
industrial, commercial and domes-
tic use, and that the company
should have the exclusive right
and privilege to use the streets,
lanes, public squares, and any
other property under the jurisdic-
tion and control of the corpora-
tion.

The agreement was made on
May 29, 1903, and the company
bound itself among other things
to commence operations within 6
months, which would be on Nov-
ember 29 of the same year.
On that date not a wire had
been made by the company to in-
stall the plant, as agreed, and the
claim is now made by the town
that this original agreement was
forfeited on that date.

NEVER SUBMITTED TO THE PEOPLE.
It will be noticed that the coun-
cil granted to the company a 25
year franchise, and this was done
without the agreement being sub-
mitted to the ratepayers for ap-
proval, although at the time a
municipal corporation had only
power to grant a franchise for
ten years. This of itself, it would
seem, should have made the
original agreement worthless.
On Nov. 23, 1903, the company
applied to the corporation for an
extension of time, in which to
complete the work, which was
granted up to November 1, 1904,
the company in return for such
extension, releasing the corpora-
tion from the franchise contain-
ed in the first agreement, "so far
only as it may appear that the
corporation had not at the time
of the agreement power and
authority to give such an exten-
sion." An agreement dated the 8th
day of September, 1904, before
its time limit with the corporation
had expired, the Western Tele-
phone company sold to the West-
ern General Electric company all
its undertakings, properties, real
and personal assets, licenses,
and franchises for the sum of
\$30,000. The capitalization of the
Western Telephone company was
\$50,000 of which the capital sub-
scribed and allotted at the time of
the transfer was \$10,000 with an
additional amount of \$5,000
awaiting allotment. The capitaliza-
tion of the new company was
\$100,000.
The agreement further set out
that the original company "has
spent much time and labor and
incurred great expense in placing
the same in the advantageous
position it now occupies."

LEGISLATURE RATIFIES IT.
At the session of the legislature
in 1905, there was inserted in the
act to amend the charter of the
town of Red Deer, a clause ratify-
ing, confirming and declaring
to be binding upon the parties,
the agreements between the town
of Red Deer and the Western
Telephone Co. and the Western
General Electric Co. concluding
with "and the said town shall be
deemed to have had at the date
of the same agreements respec-
tively, full power and authority
by its officers to grant the rights
and privileges thereby intended
to be conferred." No claim had
heretofore been made by the
company that the town had any
power to make such agreements

or that they were valid. This
clause was inserted in spite of the
unanimous opposition of the
council, who sent a deputation to
Edmonton to oppose any such
clause being inserted. The
charter without being first sub-
mitted to a vote of the people.
One clause in the agreement,
granting exemption of the com-
pany's property from taxation
during the life of the agreement
had been voted on by the rate-
payers, and this was held by the
company to mean the whole
agreement. Had the whole agree-
ment been submitted to the
people, it is very doubtful
whether it would have been rat-
ified by them. By the terms of
the amendment to the charter,
the citizens of Red Deer were bound
irrevocably to the terms of the
agreements so long as the com-
pany carried out the terms of
them, but the result shows how
difficult it is to force a company
to live up to the terms of an
agreement as interpreted by the
people, when once they have
lightly disposed of a franchise.

CORPORATION WOULD NOT SELL.

In February, 1906, the council
offered to the company the sum
of \$120 for every dollar that the
company had expended for its
plant, equipment, property, etc.,
but although all the other share-
holders voted to accept the terms,
the few who hold the controlling
interest refused.

In regard to the rates to be
charged for the telephones, the
original agreement stated that
the company agreed "to furnish
such service and system at the
rate of twenty-five dollars per
year for business telephones and
ten dollars per year for residence
telephones, payable half yearly
in advance."
And further, "that the prices
hereinbefore mentioned and
charged for any of the foregoing
services, shall always be subject
to adjustment by either the cor-
poration or the company on the
basis and principle that the prices
charged for any of the said ser-
vices shall approximate but
never exceed the prices charged
in any town or city in the North
West Territories, under similar
conditions to the then existing
conditions prevailing in Red Deer
for like efficient services." In
the event of the corporation and the
company failing to agree on the
terms of any proposed change in
prices this matter was to be left
to arbitration.

COMPANY RAISES RATES.

Last fall the company raised
the rates on telephones to \$35 for
business and \$22 for residence
phones, and for electric light
from a 65 cent flat rate to 20c per
kilowatt hour.

Arbitration of the dispute
arising out of this increase in
price, was agreed upon, the com-
pany securing the services of Mr.
Kelch, an expert electrical arbit-
rator from Montreal, and
William Cousins of Medicine Hat
acted for the town. These two
failed to reach an agreement, and
Judge Winter, Lethbridge, was
nominated as third arbitrator.
The arbitrators after hearing the
arguments sustained the contentions
of the company and the
users of telephones were forced
to pay the increased rates. In
June of this year a large number
cut out their telephones and a
public meeting was held to con-
sider what could be done under
the circumstances. The council
made another demand on the
company to reduce its rates to
those of the government tele-
phone system in other towns
similarly situated, but this de-
mand was refused by the com-
pany. In August of this year the
company served notice on all
users of telephones that if they
wanted their service continued
after October, they would be re-
quired to sign a contract for one
year. Many of the users refused
to sign such a contract, and
although they tendered payment
for six months in advance, ac-
cording to the agreement, it was
refused, and their telephone ser-
vice was cut off.

After Oct. 1, the council de-
manded that the company com-
mence to supply all customers,
who were willing to pay six
months in advance, within 48
hours, otherwise the agreement
would be considered to have been
violated and be declared void.
This was refused by the com-
pany, and the council notified the
company that its agreement with
the town had been declared void
and also served it with a writ
notifying it that the council were
asking the courts to sustain its
action.

In the meantime, a petition had
been circulated and largely signed
in Red Deer, asking the pro-
vincial government to extend its
telephone system to Red Deer,
and promising support.

THE WATER SUPPLY.

By a further agreement dated
Sept. 29, 1904, a contract was
entered into between the town of
Red Deer and the Western Gen-
eral Electric company, whereby
the latter agreed to furnish the
power to supply water pressure of
not less than 30 pounds in the
water mains of the municipal
water works system for domestic
and other uses, and up to 120
pounds per square inch for fire
protection purposes, such pres-

sure to be given with an outlet
of one and one quarter inch
nozzle.

For this service the town agreed
to pay one thousand dollars per
year for all hydrants installed up
to twenty, and for each hydrant
installed after that number the
sum of fifty dollars; and for domes-
tic and all other services the
sum of sixty per cent. of the gross
receipts arising therefrom. After
the installation of the water
works system the council under
powers which were secured from
the legislature, enacted a by-law
to levy a tax of 50c per foot front-
age on all property along the
waterworks system, not using
water or paying rates, to pay in-
terest on debentures and annual
instalment of principal. Now the
company demands 60 per cent. of
this special levy and advances
the claim that it is part of the
gross receipts of the water works,
which the council refuses to pay,
and the matter will also likely be
left to the courts to decide. The
company also makes the claim
that according to agreement, in
case of fire, it is only bound to
supply water of the pressure
named, for one 1-1/4 inch nozzle,
which is clearly not as it was in-
terpreted by the council to mean
when making the agreement.

There the matter rests for the
present, but the people of Red
Deer are determined to obtain
justice in some way for the mis-
takes made in giving away such
a valuable franchise, and relief
from what they consider unjust
demands.

FOLEY'S

PREMIER
SODAS

SODAS are made almost entirely of flour and lard. These are
two of the principal and most valuable food-elements.
Now a perfect food and a pure lard combined and sur-
passing in nourishing value and yet get this combination in its most sat-
isfying and most delightful form in **Foley's SODAS.**

The flour used in them is
specially ground and prepared
for the one purpose—that of pro-
ducing the lightest, creamiest,
most delicious sodas that are
sold in Canada. Every particle
of lard that goes into **Foley's**
Sodas is proved "choice" after
rigid examination.

No material can ever be used
in **Foley's Sodas** unless it has

HEAL that
OBSTINATE SORE!

CUTS and bruises are often very obstinate in refusing to
heal. The edges of the wound remain inflamed and sore,
and there is a daily danger of disease germs settling on the raw flesh
and giving rise to serious complications. Thus, neglect or improper
treatment of an injury, be it a cut, burn, scald, or even a simple
scratch, is a menace to life.

In cases where wounds refuse to heal quickly, nothing but
Zam-Buk will suffice if the skin is to be made to grow naturally and
perfectly once again. **Zam-Buk** rubbed gently over a wound has the
remarkable effect, not only of rendering the wound proof against
disease germs, but of growing new skin-tissues.

Thus **Zam-Buk** heals wounds in a perfectly natural manner, and
the possibilities of eczema and other torturing skin-diseases are
entirely prevented. Possessing rare medicinal properties, **Zam-Buk**
accomplishes what ordinary ointments and salves never can do, and its
ever-ready character, constant reliability, and
absolute purity, render it distinct from all
other preparations. If you dress your cuts
and sores with **Zam-Buk** you will never be
troubled with "the wound that would
